The 1st little worm met a man
carrying a pialle of mold. The 2nd little

let me come in" said

the mole kindly. "Not by the slime
on me so ~~the~~^{he} diged and he diged and the house
fell down. The 1st little worm ran all the
way to his brothers house. ~~eventually~~ the mole

came to the house of straw. The mole liked
his lips as he came up with a plan.
"Little worm let me come in."

Said the mole kindly. "Not by the ~~hair~~^{ball} of
straw slime on me so he digd and digd and the
house fell down. The 2nd little worms ran ~~to~~
the way to his brothers house. after a while the mole

came to the house of mold. The mole liked
his lips as he came up with a plan.
"Little worm let me come in."

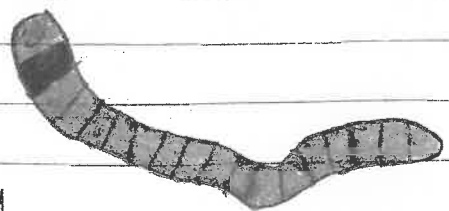

Said the mole kindly. "Not by the
mold on me so he digd and digd and the
house fell down. The 3rd little worm ran
to his brothers house. after a while the mole

came to the house of stones. The mole's eyes opened wide as he came up with a plan. "Little worm little worm let me come in" said the mole kindly. Not to big the slime on me so the mole digd and digd but the house woodned fall down how angry the mole was! he stamped his feet and wavel his fist. The mole was thinking cefly now because he wasn't going to let those those cheery worms get away with this. He ~~jumped onto~~ climbed onto the roof and started to ~~climb~~ climb down the chimney. Luckily the three little worms ^{heard} the mole's ^{paws} on the roof. What shall we do? said the three little worms they decided to let light a fire and fill a pot of water and put the lid on to boil. As soon as ~~the lid~~ they heard the mole's paws on the coming down the chimney they snatched the lid off. all of a sudden the mole fell into boiling hot water and burn burnt his foot. Eventually the heplers mole ran away from the house of stones and never return again. The three little worms live happily ever after or so they say.
