

Welcome back to our final term together! We are going to be travelling around the UK with Paddington Bear. Finding out about the different countries, their capital cities, customs and geographical features. Towards the end of term the children will learn about 'Darkest Peru', looking for similarities and differences with the UK.

Geography and Science

With Paddington as our tour guide we will be exploring the 4 countries which make up the UK. This will include learning their capital cities and also looking at the surrounding seas.

We will also be looking at the human and physical features of the school grounds and London.

While in London we will look at the royal family and the role of the Queen.

We will also look at Peru and compare it to BoA.

In science we will be sorting animals into mammals, reptiles, birds, amphibians, fish and invertebrates.

Computing

In computing the children will continue their word processing skills and use of the spacebar, back space, enter, shift and arrow keys. They will create leaflets on the program 2publish. They will also be recording and changing sound and using websites to find out about Peru.

Year 1 Term 6 2018

Around the UK with Paddington Bear

S.O.S

The children will be sewing this term and need some parent / grandparent helpers to sit quietly with them to complete this lovely project. If you have an hour at the end of the school day or any time to offer then we would love to hear from you! Many thanks in advance.

English

In English the children will be writing letters and postcards to Aunt Lucy from Paddington Bear as he visits the UK. In doing so, they will be continuing to use full stops, capital letters, question marks and exclamation marks.

In our guided reading sessions we will be answering lots of questions from the text and discussing the meaning of new vocabulary.

Maths

We will be using addition and subtraction to solve real-life problems.

Practising our number bonds and related subtraction facts within 20.

Telling the time to the hour and half past the hour.

Compare, describe and solve practical problems for capacity and volume.

Dates for your diaries
