

Year 4 Class Dojo: Summer 2- Week 8

Hello lovely Year 4! You've made it! You've reached the end of the academic year and you should be so very proud of yourselves. It is certainly not the ending that we would ever have wanted for you but I hope that you have been able to find the silver lining from the experience. Maybe you've tried something you never would have thought to have tried, or found new ways to have fun with friends and family that you wouldn't have even had to think about before.

Everyone here at Christ Church is incredibly proud of all that you have achieved whilst away from school, and we are eagerly awaiting seeing you all again in September.

For now, however, we have two more days to go and so I have attached a grid of activities that you might want to have a bash at. You could also finish off any Wellbeing Week activities that you didn't get to and continue working through our Summer Topic grid to find out more about those fascinating Vikings and Anglo Saxons. I'm sorry we didn't get to do the topic in the way we wanted to, but hopefully you've enjoyed learning what you can about them. We would still love to see anything that you choose to do on Dojo.

Have a super final few days, stay safe and look after each other...

Mr Hardwick

Message in a bottle:

Lots of the Year 3s will be very nervous about coming up to Year 4. Write a message in a bottle telling them all of the fantastic things you have got to do in Year 4. Maybe there was a particular topic you really enjoyed? Perhaps you liked a particular subject?
This could be a message in a real bottle, a paper template, a little leaflet or even a video!

ELLI Fun!

One of the things that makes our school so special is our ELLI dimensions. To celebrate this uniqueness, can you come up with a story/collage/piece of art/model/anything you can think of which incorporates all of our ELLI animals? *(If you can't remember them all, I've popped them after this grid)*

The Commentator

Pick your favourite sport and find a really good video of it – perhaps an impressive gym routine, a great football match or a super wrestling bout. Watch it through and listen to the commentary, thinking about what sort of things each commentator says. Make some notes as you go of your ideas for describing the action. Then, hit mute and become the commentator yourself. Maybe do this with a co-commentator from your family.
We'd love to see videos on Dojo!

Board game bonanza!

Can you invent a board game themed with your Year 4 experience or topic? What could your board game look like? What characters or counters would you have? What are the rules? Make it out of whatever you like and then send a picture or video to Dojo explaining your brand new game!

Outdoor maths!

Can you find the age of a tree? The Beech Tree at school is well over 100 years old but I'm wondering if you are able to find one that's even older!

This is how to calculate the rough age of a tree:

Measure the distance around the trunk roughly one metre from the ground. As every 2.5cm of circumference (the

Memory time!

What has been your favourite memory since you've been in Year 4? It might have been your very first day when you were nervous but it all turned out fine! It might be a particular lesson that you really enjoyed! It might be a musical or sporting achievement in school. Maybe it was tackling a skill during lockdown that you thought you would never, ever manage!

distance around the edge of a tree) correlates to around one year's growth, you can then divide your measurement by 2.5 (calculators are allowed!) to work out the age of the tree.

For example, a tree with a circumference of 100 cm will be roughly 40 years old ($100 \div 2.5 = 40$).

You could share your favourite memory with a short retelling or even just a picture!

Thank you

The people at home with you have been absolutely amazing at helping keep your education going through the home-schooling that has needed to be done. Make a lovely card or present for the people that have helped you at home to say a well-deserved and heart-felt thank you.
