

Traction Man to the Rescue!

Year 2 Term 5

English

After an exciting superhero day, we will write a recount. We will then write a setting description, create a super villain for Traction Man to defeat and write a brand new Traction Man rescue mission adventure. Our focus will be using conjunctions (and, but, so, when, if, that, because) to add extra detail as well as consolidating suffixes, a range of punctuation and expanded noun phrases. In our whole class guided reading sessions, we will be reading 'Traction Man Is Here' and continue to develop our retrieval, inference and sequencing skills.

Creative Curriculum

Is it a bird? Is it a plane? No it's laser beams in the classroom! Monday will be no ordinary day for Team Two as we walk into class to find a tangled web of laser beams. After working our way through the laser beams, it will be our mission to become superheroes for the day by completing challenges involving intelligence, agility, speed and even flying!

Our topic will focus on the adventures of the superhero, Traction Man. With an action outfit for every occasion, Traction Man patrols the house saving toys, guarding toast, searching for lost wrecks and rescuing people in distress. Our hero is ready for anything ... or is he?

In other subjects we will be looking at...

Science – Exploring microhabitats and the living things within them.

PSHEE - Relationships

RE – Judaism

PE – Rounders and Tennis

Computing – Word processing skills

Maths

In Maths, we will focus on fractions before consolidating all four operations (+ - x ÷), 2D and 3D shape properties, finding totals using coins and telling the time to o'clock, half past, quarter past and quarter to.

We will continue to develop our ability to recall the 2, 5 and 10 times tables and their corresponding division facts. We have some amazing TT Rock Stars in Year 2. Keep using the website as part of your weekly home learning.

Dates for your diary

Friday 29th April – Class Photos

Monday 2nd May – Bank Holiday and May Fayre

Monday 23rd May – Eco Art Day

Friday 27th May – Queen's Jubilee Celebration
